

Premium nutritional seed treatment

Active PLS™ is a seed nutritional coating that supplies seeds with the nutrients needed to improve germination, early growth and the efficiency of biological nitrogen fixation (BNF). Active PLS™ works synergistically with Rhizobial inoculants to maximize BNF, leading to stronger plants and higher yields.

READ THE ENTIRE LABEL BEFORE USING THIS PRODUCT.

DIRECTIONS FOR USE: SHAKE WELL BEFORE USING. Apply as a seed nutrient dressing to soybeans, faba beans, peas, lentils, chickpeas and other beans using 2 ml / kg of seed. Seed coating can be done simultaneously with Active PLS™ and compatible agrochemicals. If using Active PLS™ without additional agrochemicals, dilute with water (1:1 ratio) to ensure uniform coverage of seeds.

- Calibrate equipment to release the required amount of Active PLS

 ™ and other agrochemicals based on seed flow rate.
- Thoroughly mix seeds with the Active PLS™ (and other agrochemicals) mixture. A coloring additive allows a visual check to ensure all seeds are uniformly coated.
- Allow treated seeds to air dry for 5-10 min before seeding.
- Application rates exceeding recommended rates can negatively affect seed germination. Always follow label directions.

COMPATIBILITY: This product is compatible with most pesticides and fertilizers. If compatibility is uncertain, conduct a jar test prior to use.

Notice: Seller's guarantee shall be limited to the terms set out on the label and subject thereto. The buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition

CHADAN	TEEN	MINIMUN	4 A MIAIN	vcic.

Total Nitrogen (N) 0.59	% Nickel (Ni)(actual) 0.0018%				
Soluble Potash (K20) 0.39	% Cobalt (Co)(actual) 0.04%				
Calcium (Ca) 3.159	%				
Molybdenum (Mo)(actual) 0.099	6				

CAUTION: This fertilizer contains the micronutrient molybdenum and should be used only as recommended.

Personal Protective Equipment: Avoid inhalation and contact with skin. Mixers, loaders, applicators and other handlers should wear: chemical goggles, chemical resistant gloves, long-sleeved shirt, long pants, shoes plus socks. If mists are present and ventilation is absent or poor, use an air purifying respirator.

Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in sanitary landfill, or incinerate by burning, if allowed, by provincial and local authorities. If burned, stay out of smoke.
