CORVIAN LABS TAURUS

SERVING CANADIAN FARMERS + RETAILERS

For more information or to discuss your testing needs, contact your local Taurus rep.

CORVIAN LABS TAURUS

Scientific Laboratory Services **for Agriculture**

Empowering agriculture with scientific laboratory services that deliver accuracy, defensibility, and confidence—every time.

Defensible. Actionable.
Proudly Canadian.

Value of a **Soil Test**

PRECISION STARTS WITH SOIL

Regular soil testing provides the foundation for better decisions, helping you optimize nutrients, improve efficiency, and increase profitability.

BETTER INSIGHTS. BETTER OUTCOMES.

- Apply nutrients where they're needed
- Improve fertilizer ROI
- Reduce unnecessary input costs
- Increase yield consistency
- Build long-term soil health
- Support sustainable farming practices

Our **Approach**

DESIGNED FOR AGRICULTURE

From family farms to enterprise research, Corvian Labs delivers the accurate, defensible data needed to make confident decisions.

1 COLLECT SAMPLES

Collect samples using the appropriate sampling process. We provide the guidance and instructions for best practices with each type of testing solution.

2 YOU SUBMIT, WE ANALYZE

Send your samples with the appropriate submission form. Our team reviews each submission to ensure everything is in place before analysis begins.

3 RECEIVE RESULTS

Receive clear, easy-to-understand reports that provide the information needed to support agronomic decisions, nutrient management, and regulatory requirements.

Service **Menu**

SOIL TESTING & ANALYSIS

Comprehensive nutrient and soil health testing to support agronomic planning and program execution.

PLANT TISSUE TESTING

Monitor crop nutrition and diagnose deficiencies to optimize yield potential and crop performance.

PARTICLE SIZE (SEPTIC FIELDS)

Measure soil particle distribution to support septic field planning, site suitability, and regulatory requirements.

MANURE ANALYSIS

Understand nutrient content to optimize application timing, rates, and overall nutrient management.
