CORVIAN LABS

TAURUS

TRUSTED LAB INSIGHTS

FOR CANADIAN AGRICULTURE

Corvian Labs delivers precise, reliable analysis to help Canadian growers, agronomists, and enterprises make confident, data-driven decisions that improve productivity and sustain long-term soil health.

15+ YEARS OF TRUSTED EXPERIENCE

7+ MILLION SOIL TESTS ANALYZED

RAPID TURNAROUND TIMES

CANADIAN DESIGNED FOR CANADIAN AG

OUR SERVICES

SOIL

Comprehensive nutrient and soil health testing to support agronomic planning and program execution.

PLANT TISSUE

Monitor crop nutrition and diagnose deficiencies to optimize yield potential and crop performance.

MANURE

Understand nutrient content to improve application timing, rates, and overall nutrient management.

PARTICLE SIZE (SEPTIC FIELDS)

Evaluate soil texture and percolation to support septic system design, compliance and performance.

WHY TEST WITH CORVIAN LABS?

- Canadian-based laboratory in Winnipeg, MB.
- Accredited, standardized methods and rigorous quality control.
- Fast turnaround to keep decisions moving.
- Independent, unbiased results you can trust.

TAILORED TESTING SOLUTIONS. FLEXIBLE SERVICE OPTIONS.

We offer a full range of test packages and custom solutions to meet your unique needs. Contact us to request a quote or build a testing program that works for you.

7 REASONS TO SOIL TEST

Soil testing provides the data you need to make informed decisions, optimize inputs, and protect your bottom line.

01

OPTIMIZE NUTRIENT MANAGEMENT

Identify nutrient levels and imbalances to apply the right nutrients, at the right rate, in the right place.

02

REDUCE INPUT COSTS

Avoid over-application and unnecessary expenses by using data to guide your fertility program.

03

IMPROVE CROP PERFORMANCE

Balanced soil fertility supports stronger root development, higher yields, and better quality.

04

SUPPORT SOIL HEALTH

Track changes over time to build healthier soils and improve long-term productivity.

05

MEET REGULATORY REQUIREMENTS

Soil testing provides the documentation needed for compliance and nutrient management plans.

06

PROMOTE ENVIRONMENTAL STEWARDSHIP

Make informed decisions that help minimize nutrient loss and protect water quality.

07

MAKE DATA-DRIVEN DECISIONS

Accurate soil data gives you confidence to make better decisions for every acre.

CORVIAN LABS. 15 YEARS OF EXPERTISE. PROUDLY CANADIAN.
